

Limited 2010 Wedding date Alternative option

We understand that many couples are really having to be budget conscious. However, we feel that it is still so very important that they have quality professional wedding portraits. Times are tight now, but in a few years you will be on more solid ground and it will just be heart breaking to have substandard wedding portraits for the rest of your lives.

We are offering per hour rate option. We will communicate via email about what images you would like created for the day, we will work with you to determine how many hours are needed to capture the memories you want. After the wedding you will see your professionally edited wedding poses on a password protected web viewing gallery for 20 days. You will be able to order only what you want with NO minimum order. If you choose to order a wedding album from us we will also include a cd of those images for you at no additional charge.

\$200 to reserve us, this is NOT applied to your photographic time, it cover editing time and administrative costs (web gallery, milage, ast.)

One Photographer: \$100 per hour

Two Photographers: adt \$50 per hour

What is the difference from choosing this option verses our full wedding collections?
